Hello Parents,

If you are receiving this letter it is because your son or daughter is enrolled in Integrated Math 1 with Coding and Robotics. This is an exciting opportunity for your student to learn the concepts of mathematics while also learning about computer programming. As part of our efforts to give students the opportunity to work with the software at home, we are asking students to attempt to download a free student version of the software on a computer at home. I've attached instructions regarding the process for downloading the software. I'm asking all parents to work with their student to confirm they 1) Have a computer at home able to download the software on to 2) That they were able to successfully download and install the software.

Product	Platform/OS
Ch	Windows 32 bit and 64 bit
	Linux on Intel architectuer X86 (kernel 2.4.20-8 or above)
	Linux on Power architecture PPC (kernel 2.6.10-1 or above)
	Solaris 2.6 or above
	HP-UX 10.20 or above
	Mac OS X 10.3 or above
	FreeBSD 5.1 or above
	QNX 7.0.0 or above
	AIX 64 bit 6.1 or above

Please fill out the information below and return this form to me:

- 1) Do you have a computer at home? Yes No
- 2) Were you able to successfully download the software? Yes
- 3) Did the sample program run? Yes No
